Hi Tigers!

I hope you have all had a lovely half-term with your families and are ready to return to Zoom for lots more learning 😊 What have you been up to over half-term? Let me know on Google Classroom. I have had lots of rest over half-term and have spent a lot of time watching new TV shows and films on Netflix. Me and Chester have been enjoying daily walks and I have also spent some time running with my mum. Our favourite run was when we ran to Costa and walked back home with a delicious hot chocolate! Hopefully this half-term, we will be able to return to the Tigers Classroom and be reunited for some face-to-face learning. Fingers crossed!

Next week, we will be moving on from our fantasy topic. We will be spending the week exploring biographies with a specific focus on David Attenborough. Over the course of the week, we will be exploring what a biography is and identifying different features of a biography before beginning to write our own. If you find yourself with some spare time when you have completed all of your learning, please remember to log on to BugClub and read some of the books I have allocated to you – it is really important that we continue to read at home as often as we can <https://www.activelearnprimary.co.uk/login?c=0>.

Next week, our maths focus will be 'area and perimeter.' You will need a ruler/tape measure to take part in practical activities as part of our maths lessons for this topic. Over the course of next week, our main focus will be on perimeter. We will be learning how to measure perimeter accurately using a ruler/tape measure and then move on to calculating the perimeter of rectangles and other compound shapes. If you have some spare time when you have finished your learning, remember you can still access [TTRockstars](#) and [Hit the Button](#) to practise those times table facts!

The full weekly overview for our learning for the week commencing 22<sup>nd</sup> February is attached to the end of this letter.

As always, your wider curriculum learning will all be uploaded on Monday 22<sup>nd</sup> February. You **do not** have to complete every task on Monday. You can spread your learning out over the course of the week as you normally would. In the learning overview at the bottom of the letter, I have put a recommended timetable for you to follow, but this is just guidance. It is up to you which activity/activities you choose to complete each day. Please ensure you are keeping your eyes peeled on our Google Classroom stream for extra challenges that I might be posting each day.

Each Zoom call will be roughly 20-30 minutes. When you log onto a Zoom, please make sure you are organised with paper/home-learning books and a pen or pencil and that you have a quiet place to work. It may also be useful to use headphones so that you can hear me as clearly as possible and have your own microphone muted until invited to speak or answer a question. Please find all of the details needed for zoom below.

**PIN: 842 486 4494**

**Password: tigers2020**

**English Zoom: 9am**

**Maths Zoom (Group 1): 10.30am**

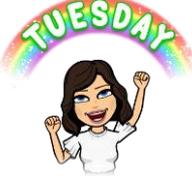

**Maths Zoom (Group 2): 11am**

Keep smiling and keep safe,

Miss Lane 😊

## Zoom Meeting Overview

	English	Maths	Afternoon Activities
	<p><u>Zoom Input 9am</u></p> <p>LO: To use my reading comprehension skills.</p>	<p><u>Group 1 Zoom: 10.30am</u> <u>Group 2 Zoom: 11am</u></p> <p>LO: To measure the perimeter of everyday objects.</p> <p><i>Mrs Berry's Group: Zoom Lesson @ 1pm</i></p>	<p>Music: Use the Kandinsky app to create and compose your own musical notes.</p> <p>P.E1: ThisISP.E Leeson 7 (Agility) and Lesson 8 (King of the Cones)</p>
