Hello again, Tigers!

Another fantastic week filled with some brilliant learning! You are all making me so proud to be your teacher, Tigers 😊 I hope you are all okay and continuing to keep safe.

This week, I have started trying to run frequently again. Hopefully, I will be able to go out for some more runs this weekend. It's very important that we are all having frequent brain breaks away from our screens. It is amazing how much better a run or even a walk can make you feel. Let me know on Google Classroom if you have been running or walking this week 😊 If you haven't already, try and complete the P.E Challenge from the Mental Health Week project. How many street names can you find beginning with each letter in the alphabet?

Next week, we will be finishing our fantasy topic in English. We will be spending each day writing a different part of our fantasy stories. I cannot wait to read them all! You should have a good idea of both your real world and fantasy world, your portal, and your characters. If you are still unsure, please do not worry as we will be having a planning session on Monday. Over the course of the next week, we will also be finishing off our class book 'Alice in Wonderland.' You will be reading some parts of it independently and some parts I will read to you. If you complete your English learning and find yourself with some spare time, please remember to log on to BugClub and read some of the books I have allocated to you – it is really important that we continue to read at home as often as we can <https://www.activelearnprimary.co.uk/login?c=0>.

In Maths next week, we will be continuing with our topic, 'Multiplication and Division.' We will start to have a look at dividing a two/three-digit number by a 1-digit number using short division with and without remainders. It is very important that we continue to practise our recall of times table facts for this topic. Over the weekend, please log on to [TTRockstars](#) and [Hit the Button](#) to practise those times table facts! You could even make up your own times table game to play with someone at home. Make learning your times tables as fun as you can! The overview for our learning for the week commencing 8th February is attached to the end of this letter. Please note, there is no learning set for Friday 12th February as this is an INSET day.

Next week, your wider curriculum will again all be uploaded on Monday. You **do not** have to complete every task on Monday. You can spread your learning out over the course of the week as you normally would. In the learning overview at the bottom of the letter, I have put a recommended timetable for you to follow, but this is just guidance. It is up to you which activity/activities you choose to complete each day. Please ensure you are keeping your eyes peeled on our Google Classroom stream for extra challenges that I might be posting each day.

As always, each Zoom call will be roughly 20-30 minutes. When you log onto a Zoom, please make sure you are organised with paper/home-learning books and a pen or pencil and that you have a quiet place to work. It may also be useful to use headphones so that you can hear me as clearly as possible and have your own microphone muted until invited to speak or answer a question. Please find all of the details needed for zoom below.

Keep smiling and keep safe,

Miss Lane ☺

Zoom Meeting Overview

	English	Maths	Afternoon Activities
	<p><u>Zoom Input 9am</u></p> <p><u>LO: To use my reading comprehension skills.</u></p>	<p><u>Group 1 Zoom: 10.30am</u> <u>Group 2 Zoom: 11am</u></p> <p><u>LO: To divide a 2-digit number by a 1-digit number without remainders.</u></p> <p><u>Mrs Berry's Group: Zoom Lesson @ 1pm</u></p>	<p><u>Weekly Project: History/ Mayan Daily Life.</u></p>
	<p><u>Zoom Input 9am</u></p> <p><u>LO: To write a fantasy story based on an imaginary setting.</u></p>	<p><u>Group 1 Zoom: 10.30am</u> <u>Group 2 Zoom: 11am</u></p> <p><u>LO: To divide a 3-digit number by a 1-digit number without remainders.</u></p> <p><u>Mrs Berry's Group: Zoom Lesson @ 1pm</u></p>	<p><u>D.T: Paper Construction. Can you make your own chair/sofa that is strong enough to hold a toy?</u></p> <p><u>P.E: ThisISP.E: Lesson 6/ Jumping Combinations.</u></p>
