

## Dragon's Egg Phonics

Below is an outline of a dragon and an egg. These are for you to print or alternatively you could draw your own.

The dragon is for writing words on depending on your level. This could be intital sounds, CVC words or phase three or four words. The egg is for the picture to match the word. For example:

Your grown up could write the words and you could draw the pictures or you could write the words. This game can be played with siblings and can also be played as a memory game with the cards face down. Then you have to find the two that match. See if you can read the dragon word and find the picture to match! 😊 There are examples of Phase 2, 3 and 4 words uploaded in the Phonics resources on the website.
