

Super Hero Phonics

Create your own super hero word cards. This could be tricky words or words that you can sound out. You could also draw your own super hero next to the word!

For example

Put them up on the wall outside and get into super hero mode (dress up if you want to)!

The adult can either read a word or sound out a word and the child has to use a water pistol, water balloon or spray bottle to hit the correct word. You can then swap roles.

You can also play a similar game inside using a spatula...

How many words can you read?

Have fun doing some super hero reading!
