

# Natural Dye Oak Bark

## Playdough Recipe

### You will need:

- 1 cup flour
- 1/2 cup salt
- 2 tbsp cream of tartar
- 1 tbsp oil
- Food colouring
- 1l water
- 25g oak tree bark
- Saucepan
- Large bowl

### Method

1. To make the oak dye, add the oak tree bark and water to the saucepan. Bring to the boil and boil for 5 minutes. Cover and leave the bark to soak for 24 hours.
2. When the dye is ready to use, make the playdough. Mix together the flour, salt, cream of tartar and oil in a large mixing bowl.
3. Reheat the oak dye until boiling.
4. Add the boiling oak dye to the other ingredients in the large bowl.
5. Stir the mixture well until it is combined into a dough.
6. Once you feel the dough has cooled enough, roll it out on a flat surface, knead it together and get playing.
