

### Maths

In maths, we are continuing our work on multiplication and division. We will be building towards multiplying and dividing two-digit and three-digit numbers by a one-digit number. We will also learn to calculate perimeter.

You can help your child at home by ensuring they continue to access TTRockstars regularly. Please check your heatmap regularly as we work towards the Multiplication Tables Check in June.

### English

During English lessons, we will write stories with a clear beginning, middle and ending, with the creation of more detailed settings and characters, along with a coherent plot. We will aim to create variety and interest through effective use of noun phrases, adjectives, powerful verbs and adverbs.

You can help your child at home by encouraging them to read for a range of purposes and try books by new authors, not previously chosen.

### Citizenship (PSHE, HRE)

We will discuss how and why rules and laws protect us.

You can help your child by discussing school rules, your own family expectations and rules around being safe online.

### French (MFL)

We will learn some new vocabulary all about 'pets'.

You can help your child at home by referring to the websites posted in Google Classroom.

## Year 4 Curriculum Spring 1 2025-2026

### RE

We will seek to engage with other people about their beliefs and values, and ask questions relating to commitment, including Lent.

You can help your child at home by discussing your family's beliefs and values, and how they impact on the way you conduct yourselves.

### Science

We will investigate sounds. We will explore and experiment with volume.

You can help your child by encouraging their wider interest in science, for example, by finding out about methods of communication used by people who cannot hear.

### Design and Technology

We will design and make a toy powered by hydraulics or pneumatics.

You can help your child by encouraging them to find out about famous designers and their products.

### Computing

We will learn how to use programming to create letters, shapes and patterns.

You can help your child by encouraging them to access age-appropriate websites to research and extend our current science and history studies.

### History

We will investigate the Ancient Greek civilisation. We will make observations and predictions, ask questions and undertake research to find out about life in Ancient Greece and significant Greeks.

You can help your child at home by encouraging them to read Greek myths and legends, and stories inspired by famous Greeks of the past.

### Art

We will study the work of traditional and contemporary who work within the still life genre. To experiment with line, shade and shadow when creating our own still life.

You can help your child at home by encouraging them to widen their appreciation of art and artists – perhaps with a visit to an art gallery.

### Music

We will learn to play the descant recorder.

You can help your child by encouraging them to find out about musicians and composers.

### PE

In PE, we are taking part in invasion games. In gymnastics, we will be developing our flexibility, strength, technique, control and balance.

You can help your child by encouraging them to find out about Olympians and Paralympians past and present.
