1.0 Mobile Phone Policy and Procedures

1.1 Aim

To protect children from harm by ensuring the appropriate management and use of mobile phones by everyone who comes into contact with the setting.

1.2 Procedures

To minimise any risks, all personal mobiles must not be used where children are present. This applies to shared use of rooms where non setting staff may be present at the start of the session, for example an out of school club using a classroom with teaching staff present.

Procedures have been put into place that will ensure safe and secure storage of practitioners' personal belongings including mobile phones. Mobile phones should be kept away from children in a secure place such as stock cupboard.

Visitors, including other professionals, contractors and parents/carers are made aware by signs and verbal reinforcement that they are not to use their mobile phone where children are present.

Under no circumstances are images, videos or audio recordings to be made on personal mobile phones.

Personal mobiles may only be used in an area where no children are present e.g. Staffroom.

Staff are advised to provide their work place contact number to their family members, own children's schools/settings for use in the event of an emergency.

The setting will not be held responsible for any loss or damage of personal mobile phones.

1.3 Work/Setting Mobile

The mobile phone needs to be a phone only, not a camera phone, and clearly labelled as a works mobile phone. The school has 1 school mobile phone (no camera) for exclusive use by extended provision only.

Where personal mobiles are used as a source of communication on a school trip, it should be switched off unless required in an emergency.

2.0 Camera and Image Policy and Procedure

2.1 Aim

To safeguard children by promoting appropriate and acceptable use of photographic equipment and resources for storing and printing images.

2.2 Legislative Framework

- Data Protection Act (1998) in which there is eight principals.
- Freedom of Information Act 2000
- Human Right Act 1998

2.3 Procedures

- Photograph Consent Forms are sent out to all families, as consent is required under the Data Protection Act 1998 as images are considered to be personal data.
- All images are to be stored and disposed of in line with Data Protection Act 1998.
- If images are to be stored for a short period of time they must be password protected on a computer storage device. All staff have their own passwords for the school network.
- Security procedures are monitored and reviewed regularly by the designated safeguarding officer. The security procedures include reviewing regularly all electronic equipment, protection against theft of equipment and computer security.
- Photograph consent forms must be signed by parents/carers with parental responsibility when they register their child with Five Ways and when they enter a new Key Stage. Copies of the consent forms should be provided for the parents when requested.**
- Images must not be used for anything other than the agreed purposes unless additional consent is obtained.
- Photographs must be appropriately disposed of should they be no longer required. This could include giving the images to parents, deleting or shredding.
- Where group photographs of children are to be taken, written permission is obtained from all parents /carers who have the right to refuse. This permission is sought on the parental photograph consent form.
- The purpose and context for any proposed images should always be considered to decide whether a photograph or video are the most appropriate method of recording the information.

The purpose of taking any images is clearly explained for example marketing of the business, prospectus, website, or local newspaper, use in display and to document children's learning.

Each reason is clearly explained and agreed with an option for parents/carers to refuse any or all of the discussed uses and to withdraw consent at any time. Any consent is reviewed at the beginning of each Key Stage and can be withdrawn by the parent/carer at any time.

Consent for the use of images applies to adults as well as children.

A child's full name should not appear alongside their photographs particularly if the images could be viewed by the general public.

2.4 Use of a Professional Photographer

Only a reputable photographer who can provide evidence of authenticity is used. Their photographic identity is checked on arrival.

They are viewed as visitors therefore appropriate supervision is put in place at all times to ensure no unsupervised access to children. They are supervised by a person who is in regulated activity.

They are asked to sign an agreement to ensure that they comply with Data Protection requirements, to agree that images will only be used for the agreed specified purpose and not be disclosed to any third person.

2.5 Parents/Carers

The use of any photographic equipment by staff, parents or visitors is only with the consent of the head teacher.

The School has the authority to challenge anyone using photographic equipment without prior consent.

Parents and carers are not covered by Data Protection Act if they take photographs or make a video recording for their own private use. It is stressed to parents and carers that any photographs or recordings made are strictly for personal use only.

2.6 Digital Photo Frames

When these are used to display slide shows of children, consent must be obtained from parents and carers.

Images of children must be purposeful and show them in an appropriate context.

Careful positioning of photo frames is always considered as they are often displayed in the most public areas of the childcare setting i.e. reception area.

2.7 Closed Circuit Television (CCTV)

- Images of people are covered by the Data Protection Act so it applies to CCTV.
- All areas covered by CCTV are well signed posted and notifications are displayed so that individuals will be advised before entering such areas. The School has signs around the premises indicating this site is monitored by CCTV.
- Data protection and information guidelines are followed at all times. This includes the appropriate storage and disposal of all recording.
